Installation

Install CONTENIDO with the help of the [official installation guide](#). Comply exactly with this guide, so we can detect errors in it.

General tests after a new installation:

- Does the installation work properly?
- Can you login with the chosen password?

New installation with example client

- Does the example client contain [all example resources](#)?
- Does the example client render correctly in your browser?

New installation without example client

- Create a new client
- Create a new language for the client
- Create a new category
- Upload files

Updates

Update CONTENIDO with help of the [official upgrade guide](#). Follow the instructions to the letter so that we can find errors in it.

Try upgrading from the latest version of the 4.8 branch AND from the latest version of the 4.9 branch.

General tests after upgrade:

- Are all pre-existing resources still available? (Modules with translations, layouts, templates, categories, articles, language, clients)
- Did the upgrade process run all upgraded jobs?

MyCONTENIDO

- Activate update notifier and check if RSS feeds and version check information are loaded and displayed

General Tests

Please try to perform the following actions and check if they behave like expected for the backend and frontend

Content Articles

Type	Backend	Frontend	Comment
Overview: Create article	✔ Marcus Gnaß		
Overview: Set as start article	✔ Marcus Gnaß		
Overview: Set article online/offline	✔ Marcus Gnaß		
Overview: Freeze/Unfreeze article			❓ What should happen w/ a frozen article? Der User, der keine Berechtigung hat, darf den Artikel nichts ändern.
Overview: Duplicate article	✔ Marcus Gnaß		
Properties: Set as start article	✔ Marcus Gnaß		
Properties: Set article online/offline	✔ Marcus Gnaß		
Configuration: Change template	✔ Marcus Gnaß		
Edit article (please see Content Types)			
Edit article with activated TinyMCE4	✔ Frederic Schneider		
Edit article properties	❓ Marcus Gnaß		❓ Where can this be done?
List content entries	✔ Marcus Gnaß		❓ In "Raw data"?

Content Category Overview

Type	Backend	Frontend	Comment
Create new category <ul style="list-style-type: none"> ▪ Category is a tree ▪ Category is not a tree 	✔ Marcus Gnaß		
Edit category <ul style="list-style-type: none"> ▪ Categoryname ▪ Alias ▪ Configure 	✔ Marcus Gnaß		
Set category online/offline	✔ Marcus Gnaß		
Protect category	✔ Marcus Gnaß		
Move category up	✔ Marcus Gnaß		
Move category	✔ Marcus Gnaß		
Move category down	✔ Marcus Gnaß		

Duplicate category	✓ Marcus Gnaß		
Frontend access	? Marcus Gnaß		
Delete category	✓ Marcus Gnaß		

Content File manager

Type	Backend	Frontend	Comment
Create directory	✓ Marcus Gnaß		
Upload files	✓ Marcus Gnaß		⚠ navi is not updated after upload of file
Modify file	? Marcus Gnaß		? Where can this be done?
Replace file	✓ Frederic Schneider		
Multidelete files	✓ Marcus Gnaß		
Delete files	? Marcus Gnaß		? How to delete a file w/o "Multidelete"?
Remove directory	✓ Marcus Gnaß		

Content Translations

Type	Backend	Frontend	Comment
View translations	✓ Marcus Gnaß		
Edit translations	✓ Marcus Gnaß		

Content Linkchecker

Type	Backend	Frontend	Comment

Style Layouts

Type	Backend	Frontend	Comment
Create layout	✓ Marcus Gnaß		
Modify layout	✓ Marcus Gnaß		
Synchronize layouts	✓ Marcus Gnaß		takes to long .. same problem as w/ modules?
Delete layout	✓ Marcus Gnaß		

Style Modules

Type	Backend	Frontend	Comment
Create module	✓ Marcus Gnaß		Freshly created modules are not synchronized?
Edit module (please see Content Types)	✗ Marcus Gnaß		<div style="border: 1px solid #ccc; padding: 2px; margin-bottom: 5px;"> CON-2751 - Getting issue details... STATUS </div> <p>⚠ After selecting a module the navigation area is updated and the selection is lost.</p>
Synchronize modules	✓ Marcus Gnaß		
Manage history	✓ Marcus Gnaß		
Truncate history	✓ Marcus Gnaß		
Translate modules	✓ Marcus Gnaß		
Delete module	✓ Marcus Gnaß		

Style Templates

Type	Backend	Frontend	Comment
Create template	✔ Marcus Gnaß		
Edit template (please see Content Types)	✔ Marcus Gnaß		
Duplicate template	✔ Marcus Gnaß		
Visual edit	✔ Marcus Gnaß		
Delete template	✔ Marcus Gnaß		

Style CSS

Type	Backend	Frontend	Comment
Create CSS	✔ Marcus Gnaß		
Modify CSS	✔ Marcus Gnaß		
Truncate history	✔ Marcus Gnaß		
Delete CSS	✔ Marcus Gnaß		

Style JavaScript

Type	Backend	Frontend	Comment
Create script	✔ Marcus Gnaß		
Edit script	✔ Marcus Gnaß		
Manage history	✔ Marcus Gnaß		
Truncate history	✔ Marcus Gnaß		
Delete script	✔ Marcus Gnaß		

Style HTML

Type	Backend	Frontend	Comment
Create HTML template	✔ Marcus Gnaß		
Modify HTML template	✔ Marcus Gnaß		
Manage history	✔ Marcus Gnaß		
Truncate history	✔ Marcus Gnaß		
Delete HTML template	✔ Marcus Gnaß

Content Types

All content types need to be tested. This requires them to be used in a module which is assignend to a template and edited in an article.

1. **CMS_HTMLHEAD**
 - a. Input of HTML text should print HTML
2. **CMS_HTML**
 - a. Input of HTML text should print HTML
 - b. Create a new link to another CONTENIDO article (Should set a correct path in TinyMCE)
 - c. Embed an image from the file manager
3. **CMS_TEXT**
 - a. Input of HTML text should print HTML plain
 - b. Input of text with paragraphs should print text with line breaks
4. **CMS_HEAD**
 - a. Input of HTML text should print HTML plain
 - b. Input of text with paragraphs should print text with line breaks
5. **CMS_DATE**
 - a. Current date should be highlighted
 - b. "Now" should select the current date and time
 - c. Choosing a date and time should display the selected date with the right format in the input field.
 - d. Saving with the green check mark should print the formatted date in the article.
 - e. Changing the format should update the displayed date in the article.
6. **CMS_TEASER**
 - a. Display of configuration dialog
 - i. ✘ width of labels is to wide in FF 61.0.1 (Marcus Gnaß)
 - b. Automatic:
 - i. Headlines with umlauts should print at the selected template place
 - ii. Change the sort order of the teaser
 - c. Manual teaser:
 - i. Select articles from different categories
 - d. Settings:
 - i. Change the display style of the teaser
 - ii. Image scale: "Cut" should display different sections
 - iii. Change the content types to display different content in the teaser

7. **CMS_FILELIST**

- a. Directories:
 - i. Select more than one directory
- b. General
 - i. Try using headlines with umlauts
 - ii. Changing the sort order and sorting criteria
 - iii. Files from sub directories of the selected ones should be displayed if the checkbox is checked
 - iv. Meta data should be loaded and shortened if the checkbox is checked
- c. Filter:
 - i. Filter files with file extensions and file sizes
- d. Manual:
 - i. Select files to be included manually. Directories from the first tab should be ignored.

8. **CMS_IMG / CMS_IMGDESCR / CMS_IMGEDITOR**

- a. Directories:
 - i. Selecting a directory should display images on the right
 - ii. Selecting sub directories should display images
- b. Meta:
 - i. Selecting a file should display its path and meta information
- c. Upload:
 - i. Create a new directory with new files. Selection should preview the image
 - ii. Upload new files in the main directory
 - iii. Upload new files in a sub directory
 - iv. Selecting an existing file should display a preview
- d. Save image with the green check mark. It should be displayed in the article

9. **CMS_LINK / CMS_LINKTARGET / CMS_LINKDESCR / CMS_LINKEDITOR**

- a. Checking "New window" should set LINKTARGET to display in a new window
- b. Changing the title should be reflected in LINKDESCR
- c. External:
 - i. External links should link to external websites
- d. Internal:
 - i. Internal links should be SEO optimized or contain a front_content.php link
- e. Link to a file:
 - i. Create new directories with new files. Selecting should link to that file
 - ii. Upload new files to the main directory
 - iii. Upload new files to a sub directory
 - iv. Selecting an existing file should link to it
- f. Save content with green check mark
